Name	Tasks
Ghala	• Conceptual Design • Member Table
Jana	• ER Model • Community Table
Sara	• File Design • Activity Table + Resource
Jawana	• Relational Schema Diagram • Relationship Table

Section 1

Conceptual Design

System description:

The computing club database system is designed to manage the main data and activities of the computing club. It stores information about members, the club community. And club activities. It also keeps track of resources used for each Activity. The system supports organizing activities. Recording member participation, and linking resources to activities. **Required identification:**

1. **Entities** :
   - Member
   - Community
   - Activity
   - Resource
   - Member activity

2. **Attributes**
   - **Member:** Academic Id, Fname, Lname, Email. Phone, Role, College, Major
   - **Community:** Community_Name. Description, Contact Email
   - **Activity:** Activity Id. Activity Name, Description, Date, Time, Location, Type
   - **Resource:** Resource Id, Resource Name, Resource Type, Supplier Name

3. **Relationships**

1. community organizes activity (1:N)
   - One community can organize many activities.
   - Each activity belongs to one community

2. Member participates in activity (M:N)
   - A member can participate in many activities
   - This is presented in the relational scheme using member member_activity

3. Activity uses resources (1:N)
   - One activity can use many resources
   - Each resources is linked to one activity

Describe Member

```
13  -- ======================================
14  CREATE TABLE Member (
15  Academic_ID INT PRIMARY KEY,
16  Fname VARCHAR(50) NOT NULL,
17  Lname VARCHAR(50) NOT NULL,
18  Email VARCHAR(100) NOT NULL UNIQUE,
19  Phone VARCHAR(15) CHECK (Phone LIKE '05%'),
20  Role VARCHAR(50) NOT NULL CHECK (Role IN ('Leader', 'Member', 'Organizer', 'Volunteer')),
21  College VARCHAR(100) NOT NULL,
22  Major VARCHAR(100) NOT NULL
23  ) ENGINE=InnoDB;
24
25  describe Member;
```

Result Grid

Field	Type	Null	Key	Default	Extra
Academic_ID	int	NO	PRI	NULL	
Fname	varchar(50)	NO		NULL	
Lname	varchar(50)	NO		NULL	
Email	varchar(100)	NO	UNI	NULL	
Phone	varchar(15)	YES		NULL	
Role	varchar(50)	NO		NULL	
College	varchar(100)	NO		NULL	
Major	varchar(100)	NO		NULL	

Image 5: Describe Member

Select from Member

```
25  describe Member;
26
27  INSERT INTO Member VALUES
28  (4461001, 'Sara', 'Ali', 'sara1@uqu.edu.sa', '0501111111', 'Leader', 'Computer Science', 'Database'),
29  (4461002, 'Jana', 'Ahmed', 'jana2@uqu.edu.sa', '0502222222', 'Member', 'Computer Science', 'Artificial Intelligence'),
